PROFESSIONAL SUMMARY

Computer Science undergraduate with project-based experience in web application development, API integration, and machine-learning workflows, supported by internship training in Python and Data Science. Familiar with programming, databases, data analysis, frontend development, and version control. Comfortable learning new tools, solving practical problems, documenting work, and collaborating with teammates. Seeking internship or entry-level opportunities where technical ability, communication, organization, and adaptability can contribute to a team.

EXPERIENCE & TRAINING

Python with Data Science Intern | Name IT Education | Apr 2026 - Jun 2026

- Completed hands-on training in Python, NumPy, Pandas, Matplotlib, SQL, R, and Git/GitHub.
- Practiced data cleaning, preprocessing, exploratory data analysis, and feature engineering on datasets.
- Built and evaluated regression and classification models with Scikit-learn and explored basic model tuning.
- Prepared visualizations and dashboards using Tableau and Power BI; studied descriptive statistics and hypothesis testing.

PROJECTS

AI Chatbot | HTML, CSS, JavaScript, Gemini API

- Created a browser-based chatbot interface and integrated the Gemini API to send user prompts and display generated responses.
- Implemented client-side interaction logic for a clear user-facing conversation flow.

GitHub: github.com/sandhyatiwari5143-cmd/Chatbot

Personalized Medical Recommendation System | Python, Machine Learning, Flask

- Developed a web application that connects user-provided inputs to a trained ML model and presents generated recommendations.
- Organized model artifacts, data files, and templates for integration with the Flask application workflow.

House Rent Prediction Web Application - Team Project | Python, Machine Learning, Flask, HTML, CSS, JavaScript

- Collaborated on a full-stack application intended to estimate house rent using a trained machine-learning model.
- Worked with the frontend and backend structure and prediction workflow using saved model and preprocessing artifacts.

EDUCATION

B.Tech in Computer Science | Kalinga Institute of Industrial Technology (KIIT), Bhubaneswar, India
CGPA: 7.44/10 | Pursuing
Class 12 - Manimukunda Secondary School, Butwal, Nepal | GPA: 2.70/4.00
Class 10 - Moon Light Secondary School, Bhairahawa, Nepal | GPA: 3.85/4.00

TECHNICAL & PROFESSIONAL SKILLS

Programming: Python, C, C++, Java basics
Web & APIs: HTML, CSS, JavaScript, Flask, Streamlit, REST API integration
Data & Machine Learning: NumPy, Pandas, Matplotlib, Scikit-learn, data preprocessing, regression, classification
Databases & Tools: MySQL, PostgreSQL, MongoDB, Git, GitHub, VS Code, Tableau, Power BI, Firebase
Professional Skills: Team collaboration, problem-solving, communication, adaptability, organization, time management

CERTIFICATION

Professional Internship Certificate in Python with Data Science - Name IT Education, 2026.

LANGUAGES

Hindi, English, Nepali, Awadhi
